\$429.99

LINESET LENGTH	TOTAL RUN LENGTH	REFRIGERANT	TUBING MATERIAL	INSULATION THICKNESS
25 ft	25 ft	R454B	Copper	3/8"

The 25 Ft. Pre-Charged R454B Lineset for 18K BTU Mini-Split Systems is an official Zone Air accessory sold direct by Zone Air (BNZ Distributing LLC) at \$429.99. A complete 25 ft pre-charged R454B lineset for 18,000 BTU systems, using the larger diameter copper tubing an 18K head needs. Pre-charged with R454B refrigerant means no vacuum pump or EPA certification required - simply connect and go.

Installation	DIY-friendly, no special tools

RETURNS & SHIPPING

Returns	30 days, uninstalled, RMA
Restocking fee	25% + return freight
Shipping	Free, 48 contiguous states

COMMON QUESTIONS

Do I need a vacuum pump or EPA certification to install it?

No. The lineset arrives pre-charged with R-454B refrigerant and uses quick-connect flare fittings, so no refrigerant is handled during installation and no EPA Section 608 certification is required.

Is this an extension or a complete lineset?

A complete 25 ft run, not an extension — it replaces the included line rather than adding to it.

Which systems does it fit?

Zone Air 18K BTU.

Can it be returned?

Yes, within 30 days of delivery if uninstalled and an RMA is issued. Buyer's-remorse returns carry a flat 25% restocking fee plus return freight.
