Installation	Snap-together, no special tools required

RETURNS & SHIPPING

Returns	30 days, uninstalled, RMA
Restocking fee	25% + return freight
Shipping	Free, 48 contiguous states

COMMON QUESTIONS

Do I need a vacuum pump or EPA certification to install it?

No. The lineset arrives pre-charged with R-454B refrigerant and uses quick-connect flare fittings, so no refrigerant is handled during installation and no EPA Section 608 certification is required.

Is this an extension or a complete lineset?

A complete 25 ft run, not an extension — it replaces the included line rather than adding to it.

Which systems does it fit?

All Zone Air 9K, 12K, 18K systems.

Can it be returned?

Yes, within 30 days of delivery if uninstalled and an RMA is issued. Buyer’s-remorse returns carry a flat 25% restocking fee plus return freight.
